

SOUTH LYON COMMUNITY SCHOOLS IS HOSTING A FREE SCREENING

Death Is Not the Answer delves deeply into the complex, often misunderstood world of depression and suicide. This PBS documentary features many of the nation's most respected mental health professionals. The film also offers enlightened thoughts of how we can find contentment and happiness through mind-body health, diet and music. The world of firefighters, first responders and police, featuring Oakland County Sheriff Bouchard and Detroit Police Chief James Craig is explored. Veterans and current military help us better understand PTSD and the difficulties living with life-changing injuries. In the end, the film offers hope and a much deeper understanding about depression and what leads to suicide.

Date: January 28, 2019
