

Dear Pearson Families,

This summer, Pearson students are encouraged to engage in simple stimulating activities to keep their minds active. Attached to this letter, is a “Summer Pioneering” bingo board. Each box on the board contains an activity to promote imagination, exploration, and collaborative invention. Please take a picture of your child engaging in each activity listed, and glue the pictures on the corresponding squares. Students are encouraged to bring their completed bingo board to the Popsicles for Pioneers event on August 29<sup>th</sup> so they can be displayed in school. We look forward to seeing how the children used their imagination to continue their learning over the summer.

In addition to the “Summer Pioneering” bingo board, a list of academic websites is being provided! These websites can be explored from the comfort of your own home or the public library. The websites will not only spark student interest, but will keep our “going green” initiative alive. Teachers have explored the websites and have found them to be full of activities which will sharpen skills across a variety of content areas. Your child’s report card will be your guide to navigate through the activities that will provide the most benefit for improving student achievement.

- If you misplace this letter, the “Summer Pioneering” bingo board and the list of available resources will be available on the Pearson website at:
