

ACCOMMODATING STUDENTS WITH SPECIAL DIETARY NEEDS

Substitutions to the regular meal will be made for students who are unable to eat school meals because of their disabilities, when that need is certified in writing by a physician.

The District, in compliance with USDA Child Nutrition Division guidelines, will provide substitute meals to food-allergic students based upon the physician's signed statement.

The Board recognizes that students with documented life-threatening food allergies are considered disabled and are covered by The Disabilities Act and Public Law 93-112 and Section 504 of The Rehabilitation Act of 1973. A "504 Accommodation Plan" shall be developed and implemented for all such identified students.
