

SECURITY OF BUILDINGS AND PROPERTY

Security systems and measures may be installed at all District facilities and vehicles to protect district property and school community members. Outside lighting may be installed and maintained at each District facility to provide illumination of the immediate grounds. An adequate key control system shall be established which will limit access to buildings to authorized personnel and will safeguard against the potential entrance to buildings by unauthorized persons. The District shall cooperate with all law enforcement agencies. (See 7445)
