

IMMUNIZATION

The Board requires that all students be properly immunized at the time of registration or not later than the first day of school pursuant to the provisions of the Department of Health and Human Services (DHHS) regulations. Students must meet the immunization requirements set by the State for attendance at school in order to enroll or attend.

Students who do not meet the immunization requirements on the opening day of school shall be admitted by the Superintendent in accordance with District administrative procedures. New students to South Lyon Community Schools shall not be admitted without proof of immunization as established by State Administrative Code.

If the District provides information on immunizations, infectious disease, medications, or other school health issues to parents and guardians of students in at least grades, 6, 9, and 12, then with that information the Board shall include information about meningococcal meningitis and the vaccine for meningococcal meningitis. The information shall include at least the causes and symptoms of meningococcal meningitis, how it is spread, and sources where parents and guardians may obtain additional information about meningococcal meningitis and may obtain vaccination of a child against meningococcal meningitis.

There are three (3) circumstances in which a required vaccine may be waived or delayed:

- A. A valid medical contraindication exists to receiving the vaccine. The child's physician must certify the contraindication on Form 5320 F2.
- B. The parents/guardians hold religious or philosophical beliefs against receiving a vaccination. Any parents/guardians who want to claim a nonmedical waiver will need to receive education regarding the benefits of vaccination and the risks of disease from a County Health Department before obtaining the certified nonmedical waiver form through the Health Department.
- C. The child has received at least one (1) dose of each immunizing agent and the next dose(s) are not due yet.
