

VIDEO SURVEILLANCE AND ELECTRONIC MONITORING

In order to protect Board property, promote security and protect the health, welfare and safety of students, staff and visitors, the Board of Education authorizes the use of video surveillance and electronic monitoring equipment on school property, and in school buildings and school buses. Information obtained through video surveillance/electronic monitoring may be used to identify intruders and persons breaking the law, Board policy, or the Student Code of Conduct (i.e., it may be used as evidence in disciplinary actions and criminal proceedings).

The Superintendent, or his/her designee, is responsible for approving where and when to install and operate fixed-location video surveillance/electronic monitoring equipment in the District. The determination of where and when to use video surveillance/electronic monitoring equipment will be made in a nondiscriminatory manner. Video surveillance/electronic monitoring equipment may be placed in common areas in school buildings (e.g., school hallways, entryways, the front office where students, employees and visitors are permitted to freely come and go, gymnasiums, cafeterias, libraries), entrance to school buildings, the school parking lots and other outside areas, and in school buses.

In extraordinary circumstances, the Superintendent shall carefully consider and consult with District legal counsel before authorizing placement in, private areas or offices (unless there is express consent given by the office occupant), or conference/meeting rooms, or in individual classrooms during instructional times.

Any person who takes action to block, move, or alter the location and/or viewing angle of a video camera shall be subject to disciplinary action.

Legible and visible signs shall be placed at the main entrance to buildings and in the areas where video surveillance/electronic monitoring equipment is in use. Signs shall be reasonably designed to notify people that their actions/behavior are being monitored/recorded. Additionally, the Superintendent, or his/her designee, is directed to annually notify parents and students via school newsletters and the Student Handbook, and staff via the Staff Handbook, of the use of video surveillance/electronic monitoring systems in their schools.

Any information obtained from video surveillance/electronic monitoring systems may only be used to support the orderly operation of the School District's schools and facilities, and for law enforcement purposes, and not for any other purposes. As such, recordings obtained through the use of video surveillance/electronic monitoring equipment may be used as evidence in any disciplinary proceedings,

administrative proceeding or criminal proceeding, subject to Board policy and regulations. Further, such recordings may become a part of a student's education record or staff member's personnel file.

The Board will not use video surveillance/electronic monitoring equipment to obtain information for the purpose of routine staff appraisal/evaluation or monitoring.

Recordings of students will be treated as confidential, to the extent allowed by law. Copies of video recordings containing personally identifiable information about students shall not be released except as required or authorized by law. Parents or guardians of minor students, and students who are eighteen (18) years of age or older, who are charged with disciplinary violations may view relevant portions of any video recording related to the charge, upon written request to the building principal, provided that viewing the recording does not violate State and/or Federal law (i.e., the privacy rights of any other students whose images appear on the recording). Likewise, school personnel may view relevant portions of any video relating to any disciplinary charge against them, upon written request to the building principal, provided that viewing the recording does not violate State and/or Federal law (i.e., the privacy rights of any students whose images appear on the recording). Absent a clear legal obligation, confidential recordings will only be released through subpoena or court order.

The Board shall maintain video surveillance/electronic monitoring recordings for a limited period. Any request to view a recording under this policy must be made within seven (7) school days of the event/incident. Unless an investigation is being conducted, recordings shall be destroyed after thirty (30) calendar days. If, however, action is taken by the Board/administration, as a result of a formal complaint or incident, recordings shall be kept for a minimum of one (1) year from the date of the action taken. Recordings may also be kept beyond the normal retention period if they are going to be utilized for training purposes.

This policy does not address or cover instances where school officials and/or parents record a specific event (e.g., a play, music performance, athletic contest, graduation, or Board meeting), or an isolated instance where a classroom is videotaped for educational or research purposes. Authorized videotaping for educational, instructional and/or research purposes is permitted and is not addressed by this policy.

The Superintendent, or his/her designee, is directed to develop administrative guidelines to address the use of video surveillance/electronic monitoring equipment in school buildings, school buses and on property owned and/or operated by the Board.

Video surveillance is to be implemented in accordance with this policy and the related guidelines. The Board will not accept or tolerate the improper use of video surveillance/electronic monitoring equipment and will take appropriate action in any cases of wrongful use of this policy.
