

EQUIVALENT EDUCATION OUTSIDE THE SCHOOLS
(HOME SCHOOLING)

The Board acknowledges the right of parents to home school within the District, as established by State law.

Such students are allowed to enroll in up to two courses per semester, with the stipulation that the courses are non-core classes or any high school course not required for graduation. However, they may not participate in any co-curricular or extra-curricular activities, even those related to their non-core classes.
