Minutes

Welcome

- Superintendent Baker welcomed those in attendance and shared the purpose of this meeting.
- She also shared that the next forum would be held on August 9th (a date change from the 8th) at 5:30 pm.

Presentation

- Kelly Parks shared a Powerpoint Presentation, providing a rationale for moving Enclave Subdivision to Hardy Elementary School.

Questions and Comments

- A question was asked about how the district accounted for current intra-district elementary school of choice students in the model. These students were “returned” to their home schools for purposes of calculating the % capacity utilization. Thus, in reality, if some Salem students remain at Hardy, the Salem percentage would decrease while Hardy would increase compared to the calculation in the model.
- There was a brief discussion about the historical perspective of prior redistrictings.
- It was clarified that the district is not currently accepting new 105 or 105c students in elementary or middle school for 2016-17.
- It was reiterated that, as it appears that further redistricting for a ninth elementary school will be needed in the future, the district is trying to limit the number of students affected in this round of redistricting.

The meeting ended at 6:07 pm.
