Preschool classes for 3-year-olds provide “hands on” experiences in science and art exploration, language development, and activities to develop large and small muscle coordination. The focus is to encourage the child to develop positive social habits such as: sharing, self-control, recognizing the rights of others, learning to adapt to group situations, and making new friends. We use the HighScope curriculum, which is aligned with the State of Michigan Standards of Quality for Preschool. All classes have a lead teacher and associate teacher. Children should be toilet-trained.

Our **Blended Program** is a class for typically-developing 4-year-olds who play and learn with children from our Early Childhood Special Education program. This class features our HighScope curriculum. The class will have a preschool teacher and associate teacher along with a special education teacher and special education paraprofessional for a lower adult/child ratio. Tuition-based children should be toilet-trained. Typically-developing children may be enrolled through the Early Childhood Center. Children from any Early Childhood Special Education program should discuss with Special Education staff the best placement for their child. This class meets for the school year rather than the typical 30 weeks of other preschool classes.
