

The School Advance Evaluation tool has been used in SLCS for building administrators since 2013-14. Use for the Superintendent and Assistant Superintendents began in 2015-16.

School Board members and the Superintendent were formally trained in the use of the School Advance tool for Superintendent Evaluation in fall 2015.

Assistant Superintendents Maureen Altermatt and Lisa Kudwa were formally trained in the use of the tool for both building and district administrators in spring 2016. All administrators who are evaluated with this tool and/or use the tool for evaluation will attend a “refresher” training, presented by School Advance personnel and tailored for our district, in October 2016. Future trainings will be conducted by Ms. Altermatt and Mrs. Kudwa as needed.
