

Building and District Administrators

The School Advance Evaluation tool has been used in SLCS for building administrators since 2013-14. Use for the Superintendent and Assistant Superintendents began in 2015-16.

Assistant Superintendents Maureen Altermatt and Lisa Kudwa were formally trained in the use of the tool for both building and district administrators in spring 2016. All administrators who are evaluated with this tool and/or use the tool for evaluation attended a “refresher” training, presented by School Advance personnel and tailored for our district, in October 2016. New building administrators hired for the 17-18 school year were trained by Ms. Altermatt and Mrs. Kudwa. New SLCS Assistant Superintendent, Ben Kirby, has been previously trained in the use of the School Advance tool. Future trainings will be conducted by Mrs. Kudwa and Mr. Kirby as needed.

Superintendent

School Board members and the Superintendent were formally trained in the use of the School Advance tool for Superintendent Evaluation in fall 2015. This tool was used during 15-16 and 16-17.

In January 2018, the Superintendent and School Board members were trained in the Superintendent evaluation tool developed by Collins and Blaha. That tool was adopted at the February 5, 2018 Board meeting for use for 2017-18 and beyond.
