Sessions are drop-in...you don't have to stay the full session, only stay for what you need!

How it works:

1. Before joining, plan out what you want to accomplish during the tutoring session. What do you need help with?
2. Once you join the meet, type in the chat which course you want help with.
3. Students will be placed with a tutor based on need and put in a breakout room to get assistance. Bring your friends if you want to all work together in a room!
